

# NAVEEN C

## Full Stack Web Developer

## SUMMARY

Motivated Full-Stack Web Developer with expertise in HTML, CSS, JavaScript, and frameworks like React and Node.js. Skilled in building responsive web applications and managing databases (MySQL, MongoDB). Quick learner with strong problem-solving skills, eager to contribute to dynamic development teams.

## EDUCATION

### Higher Studies

Government Higher Secondary School -70%  
(2019-2021)

### Bharathidasan University

Erode Arts and Science College  
B Com {B&I} -72%  
(2021-2024)

## SKILLS

### Front-End

- HTML-5
- Css (Cascading style sheet)
- Tailwind Css
- Javascript
- React Js

### Back-End

- Node.js
- Express.js

### Database

- MongoDB

## CERTIFICATIONS

- Entrepreneurship Skill Development on Inter College Workshop.
- Tally ERP Skill Development Training

## PROJECT

### Project - 1

#### Portfolio Resume

**Technologies :** HTML5, CSS, Java Script, React js. In this project, I developed a fully functional Portfolio-Resume web application that allows users to send personalized email campaigns to a large list of recipients. The front-end is built with React, providing a seamless and interactive user interface, while the back-end is powered by Node.js, Express, and Mongoose, ensuring efficient handling of user data and email operations.

### Project - 2

#### BulkMail Project

**Technologies :** React Js, Node Js, MongoDB, Mongoose, Express Js  
In this project, I developed a fully functional BulkMail web application that allows users to send personalized email campaigns to a large list of recipients. The front-end is built with React, providing a seamless and interactive user interface, while the back-end is powered by Node.js, Express, and Mongoose, ensuring efficient handling of user data and email operations.

### Project - 3

#### Actodo Project, Add Daily Routine

- Project Highlight: Actodo – A Modern Task Management App
- I recently developed Actodo, a full-stack task management application designed to streamline productivity and enhance user experience. Actodo helps users organize, track, and complete tasks efficiently with an intuitive and dynamic interface.

#### Technologies Used:

- Frontend: ReactJS (with Hooks and Context API)
- Backend: Node.js with Express
- Database: MongoDB (using Mongoose for ORM)
- State Management: Redux
